

## Contents

### Editorial

- 301** Towards a biopsychosocial nosology of mental illness: challenges and opportunities for psychiatric epidemiology  
*C G Forero, J I Castro-Rodríguez, J Alonso*

### Commentaries

- 303** Doctors as a knowledge and intelligence building group: pragmatic principles underlying decision-making processes  
*F Borrell-Carrió, A Estany, F W Platt, V Morales-Hidalgo*
- 306** Metagenomic epidemiology: a new frontier  
*S S Francis, L W Riley*

### Life course and long-term influences on health

- 309** Childhood correlates of adult TV viewing time: a 32-year follow-up of the 1970 British Cohort Study  
*L Smith, B Gardner, M Hamer*
- 314** Understanding the lifetime determinants of television viewing  
*D Bann, P Goldblatt, R Cooper*
- 316** Cohort differences in the levels and trajectories of frailty among older people in England  
*A Marshall, J Nazroo, G Tampubolon, B Vanhoutte*
- 322** The educational gradient in coronary heart disease: the association with cognition in a cohort of 57 279 male conscripts  
*I Ariansen, L Mortensen, J Iglund, G S Tell, K Tambs, S Graff-Iversen, B H Strand, Ø Næss*
- 330** Childhood conscientiousness predicts the social gradient of smoking in adulthood: a life course analysis  
*M Pluess, M Bartley*
- 339** Socioprofessional trajectories and mortality in France, 1976–2002: a longitudinal follow-up of administrative data  
*M Karimi, B Geoffroy-Perez, A Fouquet, A Latouche, G Rey*
- 347** Does high intelligence improve prognosis? The association of intelligence with recurrence and mortality among Swedish men with coronary heart disease  
*A S Wallin, D Falkstedt, P Allebeck, B Melin, I Janszky, T Hemmingsson*

- 354** Childhood adversities predict strongly the use of psychotropic drugs in adulthood: a population-based cohort study of 24 284 Finns  
*K Koskenvuo, M Koskenvuo*

### Other topics

- 361** A novel ecological methodology for constructing ethnic-majority life tables in the absence of individual ethnicity information  
*M Morris, L M Woods, B Ratchet*
- 368** Growth patterns of white British and Pakistani children in the Born in Bradford cohort: a latent growth modelling approach  
*T F Mebrahtu, R G Feltbower, E S Petherick, R C Parslow*
- 374** The effect of participatory women's groups on infant feeding and child health knowledge, behaviour and outcomes in rural Bangladesh: a controlled before-and-after study  
*L Younes, T A J Houweling, K Azad, A Kuddus, S Shaha, B Haq, T Nahar, M Hossen, J Beard, A Copas, A Prost, A Costello, E Fottrell*
- 382** Getting sick and falling behind: health and the risk of mortgage default and home foreclosure  
*J N Houle, D E Keene*

### Short reports

- 388** Objectively measured physical activity and vitamin D status in older people from Germany  
*J Klenk, K Rapp, M Denking, G Nagel, T Nikolaus, R Peter, B O Boehm, W Koenig, D Rothenbacher, and the ActiFE Study Group*
- 393** Does falling testosterone with age among men underlie the increase in ischaemic heart disease  
*J Zhao, C M Schooling*

### Review

- 397** A multistudy analysis investigating systematic differences in cardiovascular trial results between Europe and Asia  
*L C Hartley, A J Girling, R J Bowater, R J Lilford*
